

## Public Works Department

The Public Works Department operated as a standalone Department under the Uganda Protectorate Government and later became the Ministry of Public Works following Ugandan Independence. The majority of this collection contains documents and correspondence originating from the Director of African Housing, the House Accommodation Committee, and the Industrial Committee. While this collection contains documents from 1905-1970, the bulk of the collection originates from the 1920s to the 1950s. Most of the Housing related files contain documents regarding the building and maintenance of various government housing infrastructures, and the Industrial Committee and General category files contain documents related to railways, roads, and various industrial development projects, including the development of chemical, textile, and energy industries. Most documents in this collection retain their original reference numbers, though a small number have been assigned a new reference number to aid in the location of files without legible file numbers. Though this collection is relatively small, given wide range of tasks handled by the Public Works Department, additional files relating to Public Works can be found in the Provincial, Secretariat, and Office of the President Collections.

This collection was catalogued from June – September 2011 by Natalie Bond, University of Michigan; Anneeth Kaur Hundle, University of Michigan; Jennifer Lee Johnson, University of Michigan; Ashley Rockenbach, University of Michigan; Edgar Taylor, University of Michigan.
